Professional Summary

Senior Frontend Engineer with 5+ years of experience building production-grade web and mobile applications with TypeScript, React, Next.js and React Native. Has led frontend delivery for multi-tenant SaaS products across PropTech, EdTech, LegalTech and Transportation, owning architecture, component systems and complex user flows such as payments, subscriptions and role-based access. Works closely with product, design and backend teams from discovery through release, and uses AI-assisted development tools to ship faster without compromising code quality.

Engineering Highlights

- 5+ years building production web and mobile applications with TypeScript, React, Next.js and React Native.
- Led frontend delivery for a multi-tenant platform serving 10+ residential communities and 1,000+ users.
- Built multiple greenfield React, Next.js and React Native applications from concept to production.
- Established modular frontend architecture, reusable component libraries and engineering standards.
- Built reliable client-side payment flows across multiple providers (Stripe, Paystack, Flutterwave, Xpress Wallet).
- Uses AI coding tools daily for prototyping, refactoring, test writing and documentation, with every change reviewed before it ships.
- Mentored frontend engineers through code reviews and technical guidance.

Technical Expertise

Languages: TypeScript, JavaScript, HTML, CSS

Frontend: React, Next.js, React Native (Expo), Tailwind CSS, shadcn/ui, Material UI

State & Data: TanStack Query, Zustand, Redux Toolkit, React Hook Form, Zod, Context API

APIs & Integrations: REST, GraphQL, payment SDKs, push notifications, identity verification

Tooling & Deployment: Git, GitHub Actions, Vercel, AWS Amplify

AI-Assisted Development: Claude, Claude Code, Cursor, GitHub Copilot

Working Knowledge: Node.js, Express, Laravel (API design and integration)

Professional Experience

Managerr Solutions Ltd

Senior Frontend Engineer (Web & Mobile) | Feb 2024 – Present

Lead frontend engineer for Haiven, a multi-tenant digital operations platform serving residential and commercial communities through web and mobile applications.

- Led web and React Native frontend delivery for 10+ communities and 1,000+ users.
- Championed a modular frontend architecture and shared component library that improved maintainability and accelerated feature delivery.
- Owned the frontend for wallet funding, subscriptions, bills & payments, utility vending, facility booking, landlord services and resident management.
- Partnered with backend engineers to define API contracts and redesign wallet funding around asynchronous payment confirmation, improving payment reliability.
- Delivered production integrations with Net2 and smart lock systems for secure digital access.
- Built and shipped iOS and Android apps with React Native (Expo), including push notifications, SMS, email and in-app messaging.

Core Technologies: React, Next.js, React Native, TypeScript, Zustand, TanStack Query, Tailwind CSS

Avancier Technologies

Frontend Engineer (Contract) | Jul 2024 – Jul 2025

Worked across multiple greenfield SaaS products spanning EdTech, LegalTech, Transportation and enterprise operations.

- Led frontend development for ExcelMind, a multi-tenant school management platform with RBAC, tenant-specific branding and teacher/student portals.
- Built Veripass from scratch, an immigration and legal case management platform, delivering its frontend architecture and role-based workflows.
- Developed Flex Flow and contributed to the Weyz Rider & Driver React Native apps, resolving native SDK integration challenges including Dojah identity verification.
- Integrated REST and GraphQL APIs while establishing reusable component patterns.

Core Technologies: React, React Native, TypeScript, REST APIs, GraphQL

Gotocourse

Lead Frontend Developer | Jun 2022 – Jan 2024

Led frontend engineering for an EdTech platform serving about 600 users across five schools.

- Built a configurable website builder that lets schools create and customise their public sites.
- Established reusable component libraries and frontend standards, and mentored two engineers through code reviews and pair programming.
- Worked with product and backend teams to ship scalable dashboards and better onboarding.

FireSwitch Technologies

Frontend Developer | Mar 2021 – Jun 2022

Developed production web applications for hospitality, fintech and entertainment clients.

- Built responsive applications including Spilleet, HotelsOffline, DavePay and Fulazo.
- Translated product designs into production-ready React interfaces, integrated REST APIs and mentored junior developers.

Education

University of Ibadan | M.A. English (2019–2021), B.A. English (2014–2018)

Johns Hopkins University (Coursera) | HTML, CSS & JavaScript for Web Developers (2019)
